Hey Howard,

Hope you and your family are well.

At a recent Select Board meeting, the Board accepted correspondence (see attached) from the residents of the lower portion of Washington Street regarding a number of traffic and safety concerns of the neighborhood. The Select Board forwarded the correspondence to the Town Manager who asked that I refer it to you and the Transportation Advisory Committee for review and consideration. Adding to the listed issues is that this portion of Washington Street is a public way from Summer Street to just beyond Brattle Terrace and then a private way the remaining stretch to Brattle Street.

I will notify the residents that the matter has been referred to TAC and that they may receive notices/updates from you in the future.

Thank you.

Ray Santilli
Assistant Town Manager
